[REDACTED] tells me that you have long memo from [REDACTED] offering suggestions for a successor to him [REDACTED] on the SRP. You should also have a copy of this memo, which I have been holding pending a call for it from Bruce. He hasn't called, so maybe he isn't interested. But if you are working on [REDACTED] suggestions you should sure have some that [REDACTED] and I worked out together, with considerable assistance from [REDACTED] There are also some [REDACTED] suggestions added, as you will see.

MEMORANDUM FOR THE RECORD

SUBJECT: Senior Review Panel Recruitment Possibilities

1. Lunch with [REDACTED]

25X1

[REDACTED] Our purpose was to solicit [REDACTED] suggestions for a possible replacement for [REDACTED]- because he operates a fellowship program [REDACTED] he is unusually well informed regarding individuals of the kind we are interested in. We were very conscious of the restraints imposed upon us by circumstances, notably, the need to find candidates who might accept the position with only about three months notice and the requirement that the candidate be a senior scholar capable of holding his own with the other members of the panel. Hence we were inclined to concentrate upon academics who have recently retired or are known or believed to be on the point of retirement, though we accepted some exceptions to these conditions, as will be seen.
